Be Fathy Tamer

Profile

A seasoned UI/UX Designer with solid foundations in designing for users and improving their digital experience. Had a chance to redesign the main interfaces, including the complete website redesign for the Egyptian Space Agency..etc . Proficient in creating wireframes and prototypes and then implementing intuitive UI solutions that address project objectives and improve the usability of systems. Able to collaborate on cross-functional teams in order to ensure that functionality and aesthetic elements blend together seamlessly, impactful designs catered to user needs.
